

LET'S FINISH THE JOB

HARRIS' ACCOMPLISHMENTS FOR IBEW MEMBERS

RAILROAD

- Harris kept pressure on railroad carriers after Congress imposed an agreement...with no support from across the aisle
- Don't be fooled: Harris played the long game on sick days
- Republicans voted almost *unanimously* against sick days...check the IBEW Scorecard to see who voted and how
- Today, 12 railroad unions have sick leave...and Harris is still pushing for 7 sick days!
- Thank Harris: Her action stopped anti-labor senators from touching railroad contracts
- The final contract includes the biggest wage increase in 47 years!
- The Bipartisan Infrastructure Act and Inflation Reduction Act offer \$102 billion for the railroad industry, including millions for Amtrak apprenticeships and \$5 billion for safety...with labor standards that *truly* encourage using unions
- Harris' support for unions and railroad workers has been loud and clear
