

Health Care Tax Toolkit

Talking Points

IMPORTANT ALERT TO ALL MEMBERS EMPLOYED BY THE FEDERAL GOVERNMENT:

This information should not be accessed during duty hours and/or using government-owned equipment (i.e., an agency-owned laptop, phone, or tablet). Do not use government-owned equipment (including government email addresses) to transmit these materials.

- Right now, Republicans in the Senate are considering changes in the tax code that would devastate IBEW members' health care plans.
- These changes would not only wreck IBEW health care plans, but they would also destroy the healthcare of the approximately 170 million Americans who get their coverage through their employer.
- If the proposals Senate Republicans are debating right now were to become law, it would result in more out-of-pocket expenses, fewer benefits, and worse health care outcomes for IBEW members and their families.
- Write to your member of Congress and tell them, "DO NOT TAX MY HEALTH CARE!"
